Linking Peachtree to FAS

- Peachtree has several products to take care of your fixed assets needs. FAS for Peachtree by Sage, the Fixed Assets Tax Update Service, and FAS 50 Asset Accounting - Peachtree Edition are the solutions that we offer. FAS for Peachtree can handle up to 200 assets and comes free with your purchase of Peachtree Complete Accounting and higher. The Fixed Asset Tax Update Service is a subscription service that keeps your depreciation calculations and forms up to date. FAS 50 Asset Accounting - Peachtree Edition is designed for businesses who have over 200 assets to manage. FAS 50 Asset Accounting - Peachtree Edition can manage up to 1,000 fixed assets.
- The Peachtree Fixed Assets Solutions page in the Peachtree desktop application provides information about the fixed asset solutions that Peachtree offers.
- To open the Peachtree Fixed Assets Solutions page, do the following:

Service Menu → More Products & Services → Fixed Assets Solutions.

- The Peachtree Fixed Assets Solutions Overview page appears. This page gives a brief overview of products that are available and pricing information. At the top of the page, there is a tab that allows you to learn more information about Peachtree's fixed assets products. The following tab is available on the Peachtree Fixed Assets Solutions page:
 - Learn More: Click the link on this tab to display information about Peachtree's Fixed Assets Solutions at the Peachtree Web site. This link requires an Internet connection.

Importing Data from the FAS 50 Asset Accounting to Peachtree Edition fixed asset management program

1. From Peachtree's File menu, choose Select Import/Export. Peachtree displays the Select Import/Export window.
2. Select General Ledger.
3. Select FAS Depreciation Import, and click the Import toolbar button.
4. In the FAS Depreciation Import Filter, change the name of the import file if desired.
5. When finished, select OK.
